SHIFTER **

Watchman – Wages, fringe benefits, and working conditions as outlined in the Agreement between the Southern California General Contractors and the Southern California District Council of Laborers.

* The classification “Shaft and Raise work” shall be applicable to all work from the entrance to the shaft or raise and including surge chambers. This classification shall apply to all work involving surge chambers up to ground level.

** Shifter, whether working or not, shall receive one dollar and fifty cents (\$1.50) per hour above the highest paid classification over which he/she has leadership.

When shifter is designated the State Licensed Blaster, he/she shall receive fifty cents (\$.50) per hour above his rate of pay.

When designated by Employer, State Licensed Blaster shall receive fifty cents (\$.50) per hour above the miners rate.

High scaling above portals and open-cut work in front of portals are usually a part of the Tunnel Contract and the foregoing wage scales shall apply on that part of the work which is done by miners as well as in the tunnel. Work outside not apart of the Tunnel is not covered by this Agreement except as provided in Section 2 and Section 17.

TUNNEL: An underground excavation (lined or unlined) whose length exceeds its width, the inclination of the grade from the excavation shall be no greater than twenty (20) degrees from the horizontal. Should the inclination of grade from the horizontal exceed twenty (20) degrees, the excavation heretofore defined shall constitute a raise.

SHAFT: An excavation (lined or unlined) made from the surface of the earth, generally vertical in nature, but may decline up to seventy-five (75) degrees from the vertical, and whose depth is greater than fifteen (15) feet and its largest horizontal dimension.
